

BPAVS6/R

Product Code	Description
BPAVS6/R	AV Selector Switch/6 Way Remote RCA & S-VHS Options

Composite and S-VHS 6 way audio video control centre!

The Ellies 6 Way AV Source Selector with remote control has been designed especially for TVs / VCRs that cannot accommodate multiple components using AV inputs at the same time. This unit eliminates the need of disconnecting and reconnecting your AV cables. Connect your VCR, DVD Player, Pay TV, Video Game Console, Camera and Camcorder to your TV and Hi Fi System.

The BPAVS6/R features a digital and logical circuit design, which allows for high quality stable pictures with low noise, low distortion and no interference. This unit incorporates a built-in amplifier to minimise transmission loss, the frequency band is high (up to 10 MHz) enough to fit high definition TV.

The source selector can learn and store the signals from a variety of infrared remote controls, allowing you to use your existing remote controls to operate the source selector aswell.

Features

- 6 AV inputs and 1 AV output
- Input/Output Ports have AV and S-VHS options
- Built-in Microprocessor
